acknowledgements

Arkansas has a great diversity of land forms and natural features. The Arkansas Natural Heritage Commission (ANHC) identifies and preserves places in our state where remnants of the original landscape still exist. By conserving these rare areas, the commission conserves the natural and biological diversity of our state. These educational units illustrate the importance of our natural diversity and our relationship to the environment.

It is fitting that a guide to natural diversity should have a diverse list of contributors. This guide is a compilation of ideas from a committee of professional environmental educators. We acknowledge their hard work and their creativity and thank them for their many contributions.

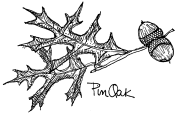

Chief Writing Team

Monica Davis Ball
Elizabeth H. Fulton
Mina Austin Marsh
Ellen Neaville
Heather R. Pitman

Additional Contributors

Dominic Alvarez Tina Brewer
Gordon Bradford Larry Buell
Lori Spencer
