Describe present and historic physical appearance. _____ See continuation sheet.

Summary

Located on 2nd Street in Lewisville, the Triplett Co. Building is a two-story, brick masonry commercial office building designed in the simple panel-brick style popular for such early twentieth century construction.

Elaboration

Located on 2nd Street in Lewisville, the Triplett Co. Building is a two-story, brick masonry commercial office building designed in the simple panel-brick style popular for such early twentieth century construction. Its rectangular plan is augmented only by a modern metal awning that extends across the southern or front elevation and a wooden exterior staircase attached to the western elevation. Two short brick flues rise from the parapet near each of its northern ends. The built-up tar roof and brick walls rest upon a continuous brick foundation.

The southern or front elevation is fenestrated with four symmetrically-placed window bays in the upper story and two large storefront windows in the wall below that flank a pair of symmetrically-placed single-leaf entrances. The storefront windows are composed of four large stationary panes below eight smaller panes that form a sort of transom. The six-over-one windows in the second story are capped with a raised brick parapet that features delicate panelled cornice detailing. The eastern elevation is blank on the first story and fenestrated with four windows above, while the western elevation is fenestrated with two windows on the second story placed to either side of the second story entrance and wooden staircase. The northern elevation contains four windows on the second story and two central windows in the wall below, with a single-leaf entrance placed to the west and a filled entrance to the east.

Also included is the associated gable roof, metal storage building located immediately to the rear of the main building. Though its exact construction date is not known -- and though it has surely been resheathed since its original construction with the corrugated metal that appears on the building today -- oral history supports the contention that it is at least 50 years old.

The Triplett Co. Building is in good condition.

8. Statement of Significance

=====

Certifying official has considered the significance of this property in relation to other properties: Locally.

Applicable National Register Criteria: A,C

Criteria Considerations (Exceptions): N/A

Areas of Significance: COMMUNITY PLANNING
AND DEVELOPMENT
ARCHITECTURE

Period(s) of Significance: c. 1915-1945 _____

Significant Dates: c. 1915 _____

Significant Person(s): N/A _____

Cultural Affiliation: N/A _____

Architect/Builder: Unknown _____

State significance of property, and justify criteria, criteria considerations, and areas and periods of significance noted above.
___ See continuation sheet.

Summary

Built c. 1915, the Triplett Co. Building is thus associated with the historic context *Railroad Era Resources of Southwest Arkansas (Lafayette, Little River, Miller and Sevier Counties)*, 1870-1945 by virtue of its direct associations with growth experienced in Lewisville as a result of the arrival of one of the railroads that played an influential role in the growth and development of Lafayette County.

Elaboration

Built c. 1915, the Triplett Co. Building was built as a lumber company office during the boom years of the lumber industry in Lewisville and the surrounding area. The arrival of the Cotton Belt Railroad years before had provided the necessary means for shipping the heretofore-inaccessible and vast supply of timber and by the first decades of the twentieth century the timber industry here had grown dramatically. The Triplett Co. Building is thus associated with the historic context *Railroad Era Resources of Southwest Arkansas (Lafayette, Little River, Miller and Sevier Counties)*, 1870-1945 by virtue of its direct associations with growth experienced in Lewisville as a result of the arrival of one of the railroads that played an influential role in the growth and development of Lafayette County. It is thus significant under Criterion A as one of the few surviving commercial buildings in

Lafayette County constructed during the boom in the timber industry brought on by the arrival of the railroad years before; it is also significant under Criterion C as the best surviving example of a panel-brick commercial building in Lewisville.

10. Geographical Data

Acreage of Property: Less than one

UTM References:	Zone	Easting	Northing	Zone	Easting	Northing
A	<u>15</u>	<u>446030</u>	<u>3690750</u>	B	<u>15</u>	_____
C	<u>15</u>	_____	_____	D	<u>15</u>	_____

___ See continuation sheet.

Verbal Boundary Description: ___ See continuation sheet.

Beginning at a point formed by the intersection of the northern edge of 2nd Street with a perpendicular line running parallel with the building's eastern elevation and located 25 feet to the east thereof, proceed northerly on said edge for a distance of approximately 200 feet to its intersection with a perpendicular line running parallel with the northern elevation of the associated storage building; thence proceed westerly along said line for a distance of approximately 100 feet to its intersection with a perpendicular line running parallel with storage building's western elevation; thence proceed southerly along said line to its intersection with the northern edge of 2nd Street; thence proceed easterly to the point of beginning.

Boundary Justification: ___ See continuation sheet.

This boundary includes all the property historically-associated with this resource that is known to retain its integrity.
