National Register of Historic Places Registration Form

This form is for use in nominating or requesting determinations of eligibility for individual properties or districts. See Instructions in Guidelines for Completing National Register Forms (National Register Bullietin 16). Complete each item by marking "x" in the appropriate box or by entering the requested information, if an item does not apply to the property being documented, enter "NA" for "not applicable." For functions, styles, materials, and areas of eignificance, enter only the categories and subcategories listed in the instructions. For additional space use continuation sheets (Form 10-900a). Type all entries.

National Register of Historic Places Continuation Sheet

Section number 7 Page 1

The Marshall Hickmon Homestead is a one-and-one-half story, wood frame Craftsman residence. Its jerkinhead gables and pedimented front porch lend a picturesque aspect to a symmetrical, side gabled plan. A single square brick chimney rises through the roof on the northern side of the ridge, toward the eastern elevation. The roof material is composition shingles, the walls are clad in stucco, and the continuous foundation is cast concrete.

The northern or front elevation is composed of a gable roof front porch supported on four panelled, sloping wood columns and stone piers which intersects with the gable roof of the main house. The side gable central entrance beneath is symmetrically-flanked by two pair of six-over-one wood sash windows. The porch pediment is punctuated only by a central vertical, rectangular louvered vent, and the stone piers below are connected by stone walls. The raised concrete porch floor is accessed via two low side stairways. The eastern and western gable end elevations are similarly fenestrated and feature two pairs of six-over-one wood sash windows flanking a smaller central window of the same type on the first floor and a central pair above in the gable. The eastern elevation features a gable roof bay projecting from its southern end which leads to an entrance into the enclosed recessed rear porch. The southern elevation is fenestrated with windows and an entrance into that porch and is otherwise blank.

The main house is intact and unaltered except for the enclosed rear porch.

The Marshall Hickmon Homestead also includes three original or historic outbuildings: a grape-picking shed, a combination grain crib/tractor shed and a livestock barn.

Section number 8 Page 1

Significance Criterion C, local significance

The Marshall Hickmon Homestead (Part E, Historic Context #4) is the best example in Bradford of a one-and-one-half story, wood frame, side gabled Craftsman style residence. Constructed in 1933, this house is typical of the third period in the evolution of Craftsman style designs in White County. Its floor plan has become very regular and symmetrical and features only the vestiges of the irregularity of plan and elevation which was one of the hallmark features of this building style.

Verbal Boundary Description:

Beginning at the point formed by the intersection the southern edge of State Highway 87 with a perpendicular line running parallel to the western elevation of the main house and located 50 feet to the west thereof, proceed southerly along said line for a distance of approximately 400 feet to the point formed by its intersection with a perpendicular line running parallel to the southern elevation of the associated barn; thence proceed easterly along said line for a distance of approximately 400 feet to a point formed by its intersection with a perpendicular line running parallel to the southern elevation of the associated barn; thence proceed easterly along said line for a distance of approximately 400 feet to a point formed by its intersection with a perpendicular line running parallel to the eastern elevation of the barn; thence proceed northerly for a distance of approximately 400 feet along said line to its intersection with the southern edge of State Highway 87; thence proceed westerly for a distance of approximately 400 feet along said line to the point of beginning.

Boundary Justification:

The original lot has been subdivided during the non-historic period, resulting in an indefinite current lot boundary; therefore, this boundary includes all the property historically associated with this resource that retains its integrity.
