Registration Form

This form is for use in nominating or requesting determinations of eligibility for individual properties or districts. See instructions in *Guidelines for Completing National Register Forms* (National Register Bulletin 16). Complete each item by marking "x" in the appropriate box or by entering the requested information. If an item does not apply to the property being documented, enter "N/A" for "not applicable." For functions, styles, materials, and areas of significance, enter only the categories and subcategories listed in the instructions. For additional space use continuation sheets (Form 10-900a). Type all entries.

Description

The Mason House is a single story, wood frame Craftsman residence. Its gable roof shelters its front gable plan. Two square brick chimneys rise from the roof: one from the ridge and the other from the eastern slope, toward the northern elevation. The roof is covered with composition shingles, the walls are sheathed with weatherboard, and the continuous foundation is cast concrete.

The southern or front elevation is composed of an off-center entrance placed to the east of the gable ridge above and flanked by a pair of six-over-one wood sash windows to the west and a single window of the same configuration to the east. A wrap-around hipped roof porch continues onto the eastern elevation and is supported by five wood box columns set upon a concrete floor. The eastern and western elevations are also fenestrated with six-over-one wood sash windows set singly or in groups and of various sizes. The southern elevation is composed of a full-length shed room which is lighted with six-over-one windows also and features a rear entrance.

The Mason House has suffered no discernable alterations. It is in good condition.

Significance

Criterion C, local significance

The Mason House (Part E, Historic Context #4) is the best example in Bradford of a single story, wood frame, front gabled Craftsman style residence. Constructed in 1935, this house is typical of the third period in the evolution of Craftsman style designs in White County. Its floor plan has become very regular and symmetrical and features only the vestiges of the irregularity of plan and elevation which was one of the hallmark features of **this building style**.

Verbal Boundary Description:

Beginning at the point formed by the intersection of the northern edge of West Main Street with a perpendicular line running parallel to the western elevation of the house and located 50 feet to the west thereof; proceed northerly along said line for a distance of approximately 200 feet to a point formed by its intersection with a perpendicular line running parallel to the northern elevation of the associated outbuilding; thence proceed easterly for a distance of approximately 200 feet along said line to a point formed by its intersection with a perpendicular line running parallel to the eastern elevation of the outbuilding; thence proceed southerly along said line for a distance of approximately 200 feet to a point formed by its intersection with the northern edge of West Main Street; thence proceed westerly along said line for a distance of approximately 200 feet to the point of beginning.

Boundary Justification:

The original lot has been subdivided during the non-historic period, resulting in an indefinite current lot boundary; therefore, this boundary includes all the property known to be historically associated with this resource that retains its integrity.
